

NEW!

Acid Eater™

BATTERY CLEANER & ACID NEUTRALIZER

- Dissolves corrosion, dirt and grime from all types of batteries.
- Neutralizes power-robbing corrosion.
- Changes color on contact with acid to detect corrosion and/or leaking batteries.
- Effectively cleans battery posts, terminals, cables, casings, boxes, trays, fasteners and hold downs.
- Easy to apply and safe to use on metal, plastic, rubber and painted surfaces.
- Biodegradable, non-corrosive, environmentally safe and contains no propellant.

BG 15-12A / 12 - 20 oz.

Acid Eater™

BATTERY CLEANER & ACID NEUTRALIZER

Battery Casing

Battery Terminals

Battery Trays

Battery Cables

Automotive Batteries

Forklift Batteries

Batteries: Liberally apply by spraying on battery cells, cables and casings while keeping cell caps tightly closed. It will change colors in the presence of acid and will change to a different color when neutralized. Agitate with a brush and wipe clean with a cloth. Rinse with water or allow to air dry.

Battery Stands, Rollers and Racks: Liberally apply by spraying on the rollers, stands and racks. Agitate with a brush and wipe clean with a cloth. Rinse with water or allow to air dry.

Concrete Floors: Apply liberally by spraying on concrete floors and agitate with brush and allow product to remain on floors undisturbed for a few minutes before rinsing.
